WORK EXPERIENCE

Litigation Technology Expert, HaystackID   05/2021 – 03/2023
Remote

- Respond to over 100 client requests per week using litigation and eDiscovery technologies, including data mining, database management, structured and content analytics, and the preparing of productions
- Create views, fields, layouts, record review batches, and production sweeps to ensure data accuracy and reliability for over 200 projects
- Serve as business training specialist and subject-matter advisor for escalated/ complex issues, delivering training and documentation to over 10 specialists on client workflow and quality processes
- Develop technical documents and procedures for migration to Relativity Analytics Suite, implementing workflows and resources to help support all platform users
- Conduct audits, quality checks, and compliance reviews, ensuring adherence to project guidelines and expectations for scope and deadlines
- Utilize a deep understanding of litigation technologies, market trends, and tools used to execute technical projects and ensure client success

Senior Manager, Platform Operations, UnitedLex   11/2012 – 05/2021
Overland Park, KS

- Oversaw daily operations and a team of 19 employees, managing staff development and service delivery expectations for numerous clients, and achieving the title of Relativity Master
- Partnered with over 10 offshore team members to lead training and documentation initiatives, while serving as expert level resource for complex projects
- Played a key role in the rollout of a Relativity mobile application, allowing for on-site document review and production without outside network connectivity
- Supported continuous improvement initiatives, such as implementing data metric storage solutions, which improved performance forecasting
- Successfully achieved a 99% quality rating across production teams, which resulted in being selected as an internal auditor within the company's ISO 27001 Certification Team
